

# **TRAILHEAD LIST**

You do not need to hunt each badge one-by-one. You have got two easy ways:

1. Use an official, prebuilt path (zero setup).
  - Admin Beginner trail – everything is already listed and ordered; just work top-to-bottom.
  - Prepare for your Salesforce Administrator credential (official Trailmix) – curated by Salesforce specifically for the exam. Open it and click “Start.”
2. Follow my custom sequence below (with direct links).

If you prefer my step-by-step order, just keep this list and click through; no searching needed. You can also paste these into your own Trailmix (instructions right after the list).

## **Phase – 1: Setup & Core Platform**

## (Optional) Capstones that look great on a resume

1. Open the Trailmixes page. Click **Create Trailmix**.  
[https://trailhead.salesforce.com/trailmixes?utm\\_source=chatgpt.com](https://trailhead.salesforce.com/trailmixes?utm_source=chatgpt.com)
2. Give it a name (e.g., “My Admin Path”), paste each module URL from the list above, and arrange the order. Trailhead’s own docs describe Trailmixes as a custom playlist that you control.
